General guidelines for evaluating assignments of distance learners

Distance learners' responses to the assignment questions sent to them by the distance teaching institutions form an important instrument of teaching learning at a distance. Communication through assignment questions, responses to these by the learners, and subsequent comments by the distance teacher on those responses minimise this spatial distance between them and increase academic and psychological closeness between the two.

Types of Assignments and designing assignments

Generally, two types of assignments are used in distance education system:

- (i) Tutor Evaluated Assignments (TEAs) and
- (ii) Computer Evaluated Assignments (CEAs).

AT PTU, we will be using Tutor Evaluated Assignments (TEAs)

These assignments are marked/evaluated by the distance teacher/tutor. These assignments will comprise a variety of questions such as essay type, short answer type, problem solving exercises etc.

1. Essay type: Answer the following in about 1500 words.
2. Short answer type: Write short notes of about 250 words each of the following:
3. Practical type exercises:

Assignment Response- The answer written by the learner with respect to a particular assignment is called assignment response.

Commenting on Assignment Response- These comments are the observations of the tutor about an assignment after going through it and these written words should provide academic support to the isolated learner and are also called Tutor Comments.

Why there is a need of Tutor Comments

- i) Continuous feedback to sustain and/or increase the motivation of learner.
- ii) Effective and motivating comments on assignment response helps the distance teacher to remove the learner's feeling of isolation, and can also bring him/her closer to the peer group by making him/her see clearly his/her achievement, drawbacks etc. in relation to those of the peers.
- iii) Through written comments the distance teacher can provide guidance, counselling and suggestions to improve the study habits of the learners.

Steps for writing comments

- i) Build in your mind, the 'ideal response' to each question in the assignment.
- ii) Then the tutor should go through the assignment response and evaluate its organisational aspects, viz., introduction, body or mid part, ending/conclusion, etc., accuracy of information, content density, logical and critical analysis of concept, clarity in expression, language and so on.
